# GF-3D Combi-rig

## GF-3D Combi-rig

The GF-3D Combi-rig is a solution for providing a stable mount for large camera packages and 3D Rigs on a centre post dolly. The 80mm diameter tubes from the standard GFM Combi-rig can be used in combination with the new "double tube" top and bottom mounts.

The bottom mount has a Euro-adapter that allows for lateral adjustments and accommodates off-set ball adapters as well as off-set 3 and 4 way levellers.

41cm/16" bracket with 35cm extension tube

Connection for counterweight rod

Euro-adapter for lateral adjustments

GF-3D Combi-rig, "double tube" top & bottom mounts
