

GF-HiLo Swivel Brackets

The new GF-HiLo Swivel Brackets enable a change of camera position from high to low or underslung to overslung within seconds.

The speed clamps have an automatic engage and disengage locking mechanism. When released, the bracket can be rotated and fixed at each 10 degree angle allowing 360° rotation. Both brackets have 2 female Euro-mounts for fitting an extension tube or Euro-adapter.

The brackets can be used on most dollies and the modular concept accepts not only GFM accessories but also accessories from other manufacturers.

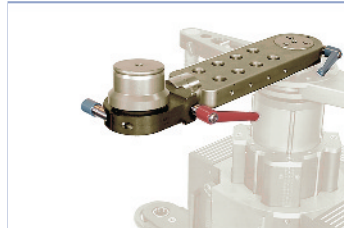

GF-HiLo Swivel Brackets can be used with the Combi-rig tubes or independently as off-set arms for mounting off-set bowls or Mitchell mounts.

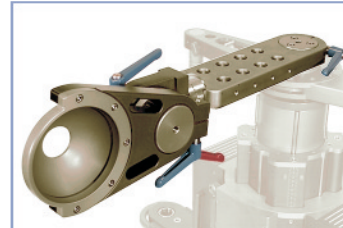

GF-HiLo Swivel Bracket Kit (rotates 360°)
41cm/16" with speed clamp adjustment AL-2376
23cm/9" with speed clamp adjustment AL-2377
