

## GF-Mini Bangi System

The GF-Mini Bangi is a compact, sliding and tracking system for camera packages weighing up to 30kg / 66lbs. It weighs only 9kg / 19lbs and is equipped with an integrated pan bearing. The GF-Mini Bangi fits on both Mitchell and Euro-adapter mounts allowing it to go directly onto central column dollies and / or Chapman / Fisher type dollies. In addition to the 360 degree pan it also provides a lateral tracking movement of 55cm / 1'9".

There are three fittings available for attaching the camera and each one can be attached to either end of the GF-Mini Bangi (Mitchell, 150/100mm Bowl and Euro-adapter). As with its big brother, the GF-Bangi, the tilt axis of each mount can be angled within a range of 360 degrees.

In addition to the standard tubes, 150cm / 5' lengths are also available for longer tracking shots. The GF-Mini Bangi can be rigged in a wide manner of ways, for example between 2 lighting stands. Its light weight construction makes it ideal for use on car rigs and jib arms where it can be used to compensate for the arc of the jib arm. Other rigging adapters are also available for connecting to scaffold tubes.

GF-Mini Bangi with 150cm / 5ft tubes, mounted on 2 lighting stands

150cm / 5ft tubes, mounted on 2 lighting stands

GF-Mini Bangi with standard 75cm / 2' 6" tubes, mounted on dolly

### Technical Specifications:

Tracking range:	55cm / 1' 9"
Reach	
retracted:	26cm / 10"
extended:	81cm / 2' 8"
	360 degree panning range
Max. payload:	30kg / 66lbs
Weight:	9kg / 19lbs
Dimensions:	81 x 17,5cm (2' 8" x 7")
